**3. *The extent to which the Coronavirus pandemic (COVID-19) may affect our business and operations in the future is uncertain and cannot be predicted.***

During the first half of calendar year 2020, COVID-19 spread to a majority of countries across the world, including India. The COVID-19 pandemic has had, and may continue to have, significant repercussions across local, national and global economies and financial markets. In particular, a number of governments and organizations have revised GDP growth forecasts for calendar year 2020 downward in response to the economic slowdown caused by the spread of COVID-19. The global impact of the COVID-19 pandemic has been rapidly evolving and public health officials and governmental authorities have responded by taking measures, such as prohibiting people from assembling in large numbers, instituting quarantines, restricting travel, issuing “stay-at-home” orders and restricting the types of businesses that may continue to operate, among many others. On March 14, 2020, India declared COVID-19 as a “notified disaster” and imposed a nationwide lockdown beginning on March 25, 2020. The lockdown has been extended periodically by varying degrees by state governments and local administrations. The lifting of the lockdown across various regions has been regulated with limited and progressive relaxations being granted for movement of goods and people in other places and calibrated re-opening of businesses and offices. Despite the lifting of the lockdown, there is significant uncertainty regarding the duration and long-term impact of the COVID-19 pandemic, as well as possible future responses by the Government, which makes it impossible for us to predict with certainty the impact that COVID-19 will have on our business and operations in the future.

We are closely monitoring the impact of COVID-19 on our financial condition, liquidity, operations, suppliers and workforce. Any intensification of the COVID-19 pandemic or any future outbreak of another highly infectious or contagious disease may adversely affect our business, results of operations and financial condition.

The said property has been taken on rent from one of the Promoter of the Company. However, we cannot give an assurance that our rent agreement for the said premises would be renewed on commercially acceptable terms or at all.

**6. *We have high Working Capital requirements. Our inability to meet our working capital requirements may have a material adverse effect on our business, financial condition and results of operations.***

Our business requires a significant amount of working capital which depends upon timely realization of our debtors and availability of cash. On an average, our debtors are realized over 30-40 days. Our Company has employed 19 employees all of whom are on our payrolls including Executive Directors. Our operations and performance are labour intensive and depends on our ability to identify, attract and retain both skilled and unskilled labour. In case such labour is unavailable or we are unable to identify and retain such labourers our business could be adversely affected. Further, there are instances where we need to hire additional contract labour, either for specialised jobs or during periods of high customer orders. We have not entered into any agreement for hiring additional

labourers and thus availability of appropriately skilled labour cannot be guaranteed. Any failure to hire the appropriate labour may impact the operations and impair our client relations.

**9. *We cannot assure you that we will be able to secure adequate financing in future on acceptable terms, in time, or at all.***

We may require additional funds in connection with future business expansion and development initiatives. In addition to our existing available funds, we may need additional sources of funding to meet our future requirements, which may include entering into new debt facilities with lending institutions or raising additional debt in the capital markets. If we decide to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of any of our business development plans and this may affect our business and future results of operations.

**10. *Our Directors and Promoter Group may have interest in our Company, other than reimbursement of expenses incurred or remuneration.***

Our Directors and Promoter Group may be deemed to be interested to the extent of the Equity Shares held by them, or their relatives or our Group Entities, and benefits deriving from their directorship in our Company. Further, the Persons in control of our Promoter are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Entities. **11. *Any change in government laws could affect the flow of our operations and disrupt our business activities.***

Our Company needs to comply with many varied laws/regulations due to the nature of business that we conduct. These laws are subject to change at the discretion of the Government. Our Company may be subject to increased expenses to comply with such changes in the applicable laws which may affect the flow of our operations. **12. *Changes in Technology may render our current technologies obsolete or require us to make substantial capital investments.***

Modernisation and technology Upgradation is essential in our industry to reduce costs and increase productivity. With latest technology and advancement of methods and machineries, our existing technology and machineries may become obsolete or may not be upgraded timely, hampering our operations and financial conditions and we may lose our competitive edge. Although we strive to keep our technology, plant and machinery in line with the latest technological standards, we may be required to implement new technology or upgrade the machineries and other equipment’s employed by us. Further, the costs in upgrading our technology and modernizing the plant and machineries are significant which could substantially affect our finances and operations.

At present, we enjoy a good relationship with our employees. However, there can be no assurance that we may not experience disruptions in our operations due to disputes or other problems with our work force such as strikes, work stoppages or increased wage demands that may adversely affect our business and results of operations.

**14. *Our success depends heavily upon our Promoters and Directors for their continuing services, strategic guidance and financial support.***

Our success depends heavily upon the continuing services of Promoters & Directors who are the natural person in control of our Company. Our Promoters have a vast experience in the business of the Company. They have established cordial relations with various customers and suppliers over the past several years, which have immensely benefitted our Company’s current customer and supplier relations. We believe that our relation with our Promoters, who have rich experience the industry, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Further, our Promoters are also part of certain other ventures and may continue to do so. If they divert their attention to such other concerns, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our Promoters or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

Further, we also depend significantly on our directors for executing their day-to-day activities. If our Promoters / Directors or any member of the senior management team is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

**15. *Our Company has availed unsecured loan from parties other than bankers & financial institutions which is repayable on demand. Any demand from the lender for repayment of such unsecured loan may affect our cash flow and financial condition.***

Our Company has availed certain unsecured loan and are repayable on demand. Though our Company intends to repay the loan amount in near future, sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section “*Unsecured Loans*” under “*Financial Statements*” beginning on page no. 54 of this Draft letter of offer. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

**16. *The Qualification and Experience Proof of some of our Promoters & Directors may not be available.***

Our Promoters and Directors are qualified and are highly experienced to run the day-to-day affairs of the Company. However, the Qualification and Experience Proof (as mentioned in the Draft letter of offer) of some of our Promoters & Directors may not be available.

**17. *Our Company’s insurance coverage may not be adequate to protect us against all material hazards which may result in disruptions of operations/monetary loss on account of stoppage of work.***

We procure insurance for our operations against third-party liability, manufacturing risks, stock insurance at warehouse, and employees’ health. Our existing insurance coverage may be insufficient to cover all the risks associated with our business and operations and generally do not cover losses from business interruption. We also cannot assure you that we will renew our existing insurance policies in a timely manner or at all. In the case of an uninsured loss, a loss in excess of insured limits or a loss for which we do not have coverage or coverage is prohibitively expensive, including those caused by natural disasters and other events beyond our control, we may be required to pay for losses, damages and liabilities out of our own funds, which could materially and adversely affect our business, financial condition and results of operations. Even if our insurance coverage is adequate to cover our direct losses, we may not be able to take remedial actions or other appropriate measures. Furthermore, our claim records may affect the premiums which insurance companies may charge us in the future.

**18. *We are dependent on a number of key managerial personnel, including our senior management, and the loss of or our inability to attract or retain such persons with specialized technical know-how could adversely affect our business, results of operations, cash flows and financial condition.***

Our performance depends largely on the efforts and abilities of our senior management and other key managerial personnel, including our present officers who have specialized technical know-how. The inputs and experience of our senior management and key managerial personnel are valuable for the development of our business and operations strategy. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. Our Company does not maintain any director’s and officer’s insurance policy or any keyman insurance policy. The loss of the services of such persons could have an adverse effect on our business, results of operations, cash flows and financial condition.

**19. *Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.***

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

**20. *We may not be successful in implementing our business strategies.***

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies.

Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

**21. *Industry information included in this draft letter of offer has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.***

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this draft letter of offer. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this draft letter of offer.

**22. *Within the parameters as mentioned in the chapter titled “Objects of this Issue” beginning on page 32 of this draft letter of offer, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.***

We intend to use entire Issue Proceeds towards meeting the working capital requirement and general corporate purpose. We intend to deploy the Net Issue Proceeds in financial year 2022-23 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “*Objects of the Issue*” beginning on page 32 of this draft letter of offer.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled “*Objects of the Issue*” beginning on page 32 of this draft letter of offer, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors and the Audit Committee will monitor the proceeds of this Issue.

**23. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.***

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value.

**24. *The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.***

The Issue price is based on numerous factors and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

**25. *Managing employee benefit pressures in India may prevent us from sustaining our competitive advantage which could adversely affect our business prospects and future financial performance.***

Employee benefits represent a major expense for us and our ability to maintain or reduce such costs is critical for our business operations. We may be required to increase employee compensation levels to remain competitive and manage attrition, and consequently we may need to increase the prices of our products and services. An increase in wages/salaries paid to our employees may result in a material adverse effect on our profits in the event that we are unable to pass on such increased expenditure to our users or customers without losing their business to our competitors. Likewise, if we are unable to sustain or increase the number of employees as necessary to meet growing demand, our business, financial condition and results of operations could be adversely affected.

**26. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.***

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, makes the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

**27. *The R-WAP payment mechanism facility proposed to be used for this Issue may be exposed to risks, including risks associated with payment gateways.***

In accordance with SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2020/78 dated May 6, 2020, read with SEBI Circular No. SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020, SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated January 19, 2021 and SEBI/HO/CFD/DIL2/CIR/P/2021/633 dated October 1, 2021 a separate web-based application platform, i.e., the R-WAP facility (accessible at [rights.beetalfinancial.com](https://rights.beetalfinancial.com)), has been instituted for making an Application in this Issue by resident Investors.

Further, R-WAP is only an additional option and not a replacement of the ASBA process. On R-WAP, the resident Investors can access and fill the Application Form in electronic mode and make online payment using the internet banking or UPI facility from their own bank account thereat. For details, see “Issue Information” beginning on page no. 107 of this Draft Letter of Offer. Such payment gateways and mechanisms are faced with risks such as:

- keeping information technology systems aligned and up to date with the rapidly evolving technology in the payment services industries;
- scaling up technology infrastructure to meet requirements of growing volumes;
- applying risk management policy effectively to such payment mechanisms;
- keeping users’ data safe and free from security breaches; and
- effectively managing payment solutions logistics and technology infrastructure.

Further, R-WAP is a new facility which has been instituted due to challenges arising out of COVID-19 pandemic. We cannot assure you that R-WAP facility will not suffer from any unanticipated system failure or breakdown or delay, including failure on part of the payment gateway, and therefore, your Application may not be completed or rejected. These risks are indicative and any failure to manage them effectively can impair the efficacy and functioning of the payment mechanism for this Issue. Since Application process through R-WAP is different from the ASBA process, there can be no assurance that investors will not find difficulties in accessing and using the R-WAP facility.

- Custom duties on imports of raw materials and components;
- Goods and Service Tax

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

**6. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.**

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

**7. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the draft letter of offer.**

While facts and other statistics in the draft letter of offer relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "**Industry Overview**" beginning on page 36 of this draft letter of offer. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

**8. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.**

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer

debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

**9. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

**10. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.***

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

**11. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.***

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

**12. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.***

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

**13. *Terrorist attacks, civil unrest and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.***

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

## SALT INDUSTRY IN INDIA

India is the third largest Salt producing Country in the World after China and USA with Global annual production being about 230 million tones. The growth and achievement of Salt Industry over the last 60 years has been spectacular. When India attained Independence in 1947, salt was being imported from the United Kingdom & Adens to meet its domestic requirement. But today it has not only achieved self-sufficiency in production of salt to meet its domestic requirement but also in a position of exporting surplus salt to foreign countries.

## SOURCES OF SALT:

The main sources of salt in India are

- Sea brine
- Lake brine
- Sub-soil brine and
- Rock salt deposits

## MAJOR SALT PRODUCING CENTERS:

Sea water is an inexhaustible source of salt. Salt production along the coast is limited by weather and soil conditions. The major salt producing centres are

**Marine Salt works** along the coast of Gujarat (Jamnagar, Mithapur, Jhakar, Chira, Bhavnagar, Rajula, Dahej, Gandhidham, Kandla, Maliya, Lavanpur), Tamil Nadu (Tuticorin, Vedaranyam, Covelong), Andhra Pradesh (Chinnaganjam, Iskapalli, Krishnapatnam, Kakinada & Naupada), Maharashtra (Bhandup, Bhayandar, Palghar), Orissa (Ganjam, Sumadi) and West Bengal (Contai)

**Inland Salt Works** in Rajasthan using lake brine and sub-soil brine viz. Sambhar Lake, Nawa, Rajas, Kuchhman, Sujangarh and Phalodi

**Salt works in Rann of Kutch** using sub-soil brine viz: Kharaghoda, Dhrangadhra; Santalpur

**Rock Salt Deposits** at Mandi in the State of Himachal Pradesh

**The major salt producing centres are given in Map-1**

## PROFILE &amp; STATUS OF SALT INDUSTRY

There are about 11799 salt manufacturers engaged in production of Common salt in an extent of about 6.09 lakh acres in the Country. It is estimated that 87.6 per cent of the total number of salt manufacturers are small salt producers (having an individual extent of less than 10 acres for salt manufacture), 5.8% is large scale producers (having an individual extent of more than 100 acres) and 6.6 % is medium scale producers (having an individual extent between 10 and 100 acres)

Gujarat, Tamil Nadu and Rajasthan are surplus Salt producing States accounting for about 96 per cent of the Country's production. Gujarat contributes 76.7 per cent to the total production, followed by Tamil Nadu (11.16 %) and Rajasthan (9.86%). The rest 2.28% production comes from Andhra Pradesh, Maharashtra, Orissa, Karnataka, West Bengal, Goa, Himachal Pradesh, Diu & Daman. On an average 62% of the total production is from Large salt producers followed by small scale producers (28%) and rest by medium scale producers

The average annual supplies of salt for human consumption is about 59 lakh tonnes and that for industrial consumption is about 107 lakh tones; 60% of the salt for human consumption moves by rail and 40 % by road. 88% of the salt for industrial consumption moves by road, 10 % by rail and 2% by coastal shipment to various industries; when the total indigenous supplies is taken, 72 per cent moves by road, 27% moves by rail and 1% by sea

Government of India has adopted the strategy of Universal Salt Iodisation and Consumption for elimination of Iodine Deficiency Disorders (IDD) in the country under the National Iodine Deficiency Disorders Control Programme (NIDDCP). Iodine is supplemented in the diet through Iodised Salt for combating IDD. The Programme was started in 1962 initially confining to Goitre endemic areas but after 1984 it was implemented throughout the country. Thus as on date a significant progress has been made on Universal Salt Iodisation. The country produces about 62 lakh tones of Iodised salt and about 59.7 lakh tones of iodised salt is supplied for human consumption against the requirement of about 60.5 lakh tones for entire population. The country has created more than adequate salt iodisation capacity of over 175 lakh tones.

Salt Industry is labour intensive in the country. About 1.11 lakh labourers are employed daily in the Salt Industry on an average. Salt Commissioner's Organisation has put in place a number of Labour Welfare Schemes ameliorating the working and living conditions of salt labourers.

### **GOVERNMENT OF INDIA'S ROLE IN DEVELOPMENT OF SALT INDUSTRY:**

Salt is a Central subject in the Constitution of India and appears as item No.58 of the Union List of the 7th Schedule, which reads:

In line with Government of India's Policy of Liberalisation and simplification of Procedures, the Salt Cess Rules, 1964, have been amended vide Notification No.GSR 639(E) dated 04.09.2001. Salt Commissioner's Organisation plays a facilitating role in overall growth and development of Salt Industry in the country.

The thrust of the Salt Commissioner's Organisation currently is on the following:

- **Technological Development and Quality Improvement**
- **Salt Iodisation Programme for combating Iodine Deficiency Disorders**
- **Infrastructure Development promoting Salt Industry**
- **Labour Welfare Schemes for Salt Workers particularly housing under NAMAK MAZDOOR AWAS YOJNA**

### Business Operations and Our Products

#### Iodized Salt:

In chemical terms, salt is the combination of a sodium ion with a chloride ion, making it one of the most basic molecules on earth. It's also one of the most plentiful. But salt is also an essential element. Life itself would be impossible without it, since the human body requires salt in order to function properly. The concentration of sodium ions in the blood is directly related to the regulation of safe body fluid levels.

And while we're all familiar with the many uses of salt in cooking, we may not be aware that salt is used in some 14,000 commercial applications. From manufacturing pulp and paper to setting dyes in textiles and fabric, from producing soaps and detergents to making our roads safe in winter, salt plays an essential role in our daily lives.

Salt has a long and influential role in world history. From the dawn of civilization, salt has been a key factor in economic, religious, social and political development. In every part of the world, salt has been the subject of superstition, folklore, and warfare, it has even been used as currency.

Our Salt is divided into 3 (three) categories:

- Table Salt
- Industrial Salt
- Ice Melter

**Table Salt**

This has been possible because of the use of imported state-of-the-art plant & technology and applying the most modern techniques to make it NATURALLY Free Flowing without the addition of any harmful anticaking additives.

They are drawn from pollution free subsoil brine water of Sambhar Lake, an inland salt lake in Rajasthan, India. Sambhar Lake has been famous for centuries as the source of finest quality and healthy salt.

The salt is then processed, iodized, treated and packed at most hygienic state-of-the-art sophisticated plant and contains no organic chemicals. Thus, the salt that reaches the customer is truly exceptional with high purity and quality.

**Ice Melters:**

The application of salt causes ice to melt is that a solution of water and dissolved salt has a lower freezing point than pure water. When added to ice, salt first dissolves in the film of liquid water that is always present on the surface, thereby lowering its freezing point below the ice’s temperature.

Ice in contact with salty water therefore melts, creating more liquid water, which dissolves more salt, thereby causing more ice to melt, and so on. The higher the concentration of dissolved salt, the lower its overall freezing point.

There is a limit, however, to the amount of salt that can be dissolved in water. Water containing a maximum amount of dissolved salt has a freezing point of about zero degrees Fahrenheit. Therefore, the application of salt will not melt the ice on a sidewalk if the temperature is below zero degrees F.

Salt melts ice essentially because adding salt lowers the freezing point of the water. Pure water freezes at 32°F (0°C). Water with salt (or any other substance in it) will freeze at some lower temperature.

**Renewable Energy**

Renewable energy is clean, affordable, domestic, and effectively infinite. It produces no emissions and results in cleaner air and water for all. **IMPACT OF COVID-19 ON THE BUSINESS AND OPERATIONS OF THE COMPANY**

The current outbreak of COVID-19 pandemic has adversely impacted the global economy. The World Health Organization (WHO) declared the outbreak of COVID-19 as a public health emergency of international concern on January 30, 2020 and a pandemic on March 11, 2020. The Government of India announced a nation-wide lockdown on March 24, 2020 and imposed several restrictions. However, due to limited availability of labour, logistics and supply chain constraints, manufacturing operations at our plants were impacted during the initial period of the lockdown. We continued our manufacturing activities after making arrangements to meet the government’s requirements on sanitization, people movement and social distancing.

Since then, we have resumed operations as per the Government of India and state government's directives. Our plant utilization has improved, raw material suppliers have resumed operations and supply and logistics have become more regular. The future impact of COVID-19 or any other severe communicable disease on our business and results of operations depends on several factors including those discussed in "Risk Factors – Internal Risk Factors No. 3 - The outbreak of Novel Coronavirus or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations on page 19 of this Draft Letter of Offer. We are continuously monitoring the economic conditions and have outlined certain measures to combat the pandemic situation and to minimize the impact on our business. For more details, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Significant Developments after March 31, 2021 that may affect our results of operations– Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19)" on page 91 of this Draft Letter of Offer.

M/s Saboo Sodium Chloro Limited

We have reviewed the accompanying statement of unaudited financial results of M/s Saboo Sodium Chloro Limited for the period ended 31<sup>st</sup> December, 2021. This statement is the responsibility of the Company's Management and has been approved by the Board of Directors. We have not performed an audit and accordingly, we do not express an audit opinion.

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results prepared in accordance with applicable accounting standards and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 including the manner in which it is to be disclosed, or that it contains any material misstatement.

Subject to the provisions contained in this Draft Letter of Offer, the Abridged Letter of Offer, the Rights Entitlement Letter, the Application Form, the Articles of Association and the approval of the Designated Stock Exchange, our Board will proceed to Allot the Rights Equity Shares in the following order of priority:

- (a) Full Allotment to those Eligible Equity Shareholders who have applied for their Rights Entitlements of Rights Equity Shares either in full or in part and also to the Renouncee(s) who has or have applied for Rights Equity Shares renounced in their favour, in full or in part.
- (b) Eligible Equity Shareholders whose fractional entitlements are being ignored and Eligible Equity Shareholders with zero entitlement, would be given preference in allotment of one additional Rights Equity Share each if they apply for additional Rights Equity Shares. Allotment under this head shall be considered if there are any unsubscribed Rights Equity Shares after allotment under (a) above. If number of Rights Equity Shares required for Allotment under this head are more than the number of Rights Equity Shares available after Allotment under (a) above, the Allotment would be made on a fair and equitable basis in consultation with the Designated Stock Exchange and will not be a preferential allotment.
- (c) Allotment to the Eligible Equity Shareholders who having applied for all the Rights Equity Shares offered to them as part of this Issue, have also applied for additional Rights Equity Shares. The Allotment of such additional Rights Equity Shares will be made as far as possible on an equitable basis having due regard to the number of Equity Shares held by them on the Record Date, provided there are any unsubscribed Rights Equity Shares after making full Allotment in (a) and (b) above. The Allotment of such Rights Equity Shares will be at the sole discretion of our Board in consultation with the Designated Stock Exchange, as a part of this Issue and will not be a preferential allotment.
- (d) Allotment to Renouncees who having applied for all the Rights Equity Shares renounced in their favour, have applied for additional Rights Equity Shares provided there is surplus available after making full Allotment under (a), (b) and (c) above. The Allotment of such Rights Equity Shares will be made on a proportionate basis in consultation with the Designated Stock Exchange, as a part of this Issue and will not be a preferential allotment.
- (e) Allotment to any other person, that our Board may deem fit, provided there is surplus available after making Allotment under (a), (b), (c) and (d) above, and the decision of our Board in this regard shall be final and binding. After taking into account Allotment to be made under (a) to (d) above, if there is any unsubscribed portion, the same shall be deemed to be 'unsubscribed'.

Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall send to the Controlling Branches, a list of the Investors who have been allocated Rights Equity Shares in this Issue, along with:

**RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES**

There are two routes through which foreign investors may invest in India. One is the “automatic route”, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “government route”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the FDI Policy and FEMA. The government bodies responsible for granting foreign investment approvals are the concerned ministries/departments of the GoI and the RBI. Pursuant to the Office Memorandum dated June 5, 2017 issued by the Department of Economic Affairs, Ministry of Finance, approval for foreign investment under the FDI Policy and FEMA has been entrusted to the concerned ministries/departments.

The GoI has from time to time made policy pronouncements on FDI through press notes and press releases. The DIPP (now DPII), issued the consolidated FDI Policy by way of circular no. D/o IPP F. No. 5(1)/2017-FC-1 dated August 28, 2017 which is effective from August 28, 2017. The FDI Policy will be valid until the DIPP (now DPII) issues an updated FDI Policy. Further, one of the conditions with respect to receipt of foreign capital under the FDI route is that the respective State Governments/Union territories are to implement the FDI policy.

As per Regulation 7 of the FEM Rules, the RBI has given general permission to Indian companies to issue rights securities to non-resident shareholders including additional rights securities. Further, as per the Master Direction on Foreign Investment in India dated January 4, 2018 issued by the RBI, non-residents may, inter alia, (i) subscribe for additional securities over and above their rights entitlement; (ii) renounce the securities offered to them either in full or part thereof in favour of a person named by them; or (iii) apply for the securities renounced in their favour. Applications received from NRIs and non-residents for allotment of Rights Equity Shares shall be inter alia, subject to the conditions imposed from time to time by the RBI under the FEMA in the matter of refund of Application Money, Allotment of Rights Equity Shares and issue of Allotment advice. This Letter of Offer, Abridged Letter of Offer, Rights Entitlement Letter and Application Form shall be dispatched to non-resident Eligible Equity Shareholders at their Indian address only. If an NR or NRI Investors has specific approval from the RBI, in connection with his shareholding, he should enclose a copy of such approval with the Application. Our Board may at its absolute discretion, agree to such terms and conditions as may be stipulated by RBI while approving the allotment of Rights Equity Shares. The Rights Equity Shares purchased by non-residents shall be subject to the same conditions including restrictions in regard to the repatriation as are applicable to the original Equity Shares against which Rights Equity Shares are issued on rights basis.

Further, in accordance with press note 3 of 2020, the FDI Policy has been recently amended to state that all investments by entities incorporated in a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government of India. It is not clear from the press note whether or not an issuance of the Rights Equity Shares to Restricted Investors will also require a prior approval of the Government of India and each Investor should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required and such approval has been obtained, the Investor shall intimate our Company and the Registrar about such approval within the Issue Period.

*As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue.*
